Health Insurance Coverage Data Files

During the first few hours of the data embargo, the Census Bureau received many requests to repackage the health insurance coverage tables by various geographic levels. Therefore the Census Bureau is providing the nine detailed tables on health insurance coverage with ALL published geographic summary levels included in each file. For example, the file B27001. Health Insurance Coverage Status by Age for the Noninstitutionalized Population.csv contains data for the US, all states, all congressional districts, and counties and other geographies that meet the 65,000-population threshold. Users may then select the geography of interest.

Note: Some of these files contain more than 65,000 rows and they may not completely load into some spreadsheets. Therefore, we recommend you open with a text editor such as WordPad.

The available health insurance coverage detailed tables are:

Table Title	File Type
B27001. Health Insurance Coverage Status by Age for the Civilian Noninstitutionalized Population.xls	CSV File
B27002. Private Health Insurance Coverage Status by Age for the Civilian Noninstitutionalized Population.xls	CSV File
B27003. Public Health Coverage Status by Age for the Civilian Noninstitutionalized Population.xls	CSV File
B992701. Imputation of Health Insurance Coverage.xls	CSV File
B992702. Imputation of Private Health Insurance Coverage.xls	CSV File
B992703. Imputation of Public Health Insurance Coverage.xls	CSV File
C27001. Health Insurance Coverage Status by Age for the Civilian Noninstitutionalized Population.xls	CSV File
C27002. Private Health Insurance Coverage Status by Age for the Civilian Noninstitutionalized Population.xls	CSV File
C27003. Public Health Coverage Status by Age for the Civilian Noninstitutionalized Population.xls	CSV File
B27001. Health Insurance Coverage Status by Age for the Civilian Noninstitutionalized Population.xls	CSV File
